JANESVILLE CARRIAGE WORKS
Manufacture and keep in stock a full line of

A diagram showing a crane lifting a load. The crane has a vertical mast with a pulley at the top. A cable runs from the pulley down to a hook, which is lifting a rectangular load. The crane is mounted on a base with two large wheels. The load is being lifted from the ground.

A detailed black and white illustration of a horse-drawn carriage. The carriage is a box-like structure with large spoked wheels. A driver is seated at the front, and several passengers are visible inside. The carriage is being pulled by a horse, though the horse is mostly obscured by the wheel on the left.

Carriages, Phaetons, Open and Top Buggies, Platform
And Farmer's Buggies, Also Perry Pat'd Driving Cart.

BARLEY—malt 30¢/bush according to quality.

CORN—Shelled per 50 lbs. 38¢/bush; new ear 35¢/bush.

Hay—Timothy for ton \$10.00; other kinds 60¢/ton.

A COLD WAVE.

The following telegram has been sent along the line of Chicago, Milwaukee & St. Paul railway:

"MILWAUKEE, Wis., Aug. 25.—The signal service department says that light frost may occur to-night in Wisconsin, Minnesota and Dakota. Danger is greater to-night than last night."

"Signed, J. T. CLARK, General Superintendent."

The damage by the frost last night was greater along the line of the Northern Pacific and the Fargo Southern railways, the extent of which cannot be ascertained at present.

Strenets.

Postoffice Inspector J. D. King is at home to-day.

Mr. Fred J. Kiany is visiting at Rock Island, Ill.

Judge J. B. Cassaday, of the state supreme court, is in the city.

Miss Ella Bort and Minnie Whitford, of Beloit, are visiting friends in this city.

Mr. Fred Balch, of Iowa, is in the city, visiting his parents, Mr. and Mrs. J. H. Balch.

Mr. N. Fredericks is enjoying herself on a visit in St. Paul and other Minnesota cities.

Miss Kate S. Nelson and Miss Annie Glenn went to Waukesha yesterday, to be gone two weeks.

Mr. L. Tallor, of the firm of Tallor Bros. & Co., Philadelphia, tobacco dealers, is registered at the Grand.

Mr. M. Stothard, and children, of Harvard, Illinois, is visiting with the family of Mr. George Pickering, of this city.

Dr. S. A. Ford left this morning for southern Dakota, to look after some mail routes which he has charge of in that locality.

Burr Robbins' circus will pass through this city to-morrow morning on their way to Harvard, where they show to-morrow.

Fond du Lac Commonwealth.—Mrs. Florence M. Dowdell, of Janesville, is visiting her cousins, Mr. and Mrs. Geo. Mosher, on Ruggles street.

Misses Belle and Helen North, of Beloit, who have for the past few days been guests of Mr. and Mrs. J. M. Pool, first ward, returned home this morning.

Mr. W. O. Brown, of the LeBeau (Dakota) Leader, who has been visiting his mother and other relatives in this vicinity for the past two weeks, returned home to-day.

C. W. Roberts, advance agent for Harry Miner's "Silver King," is registered at the Myers. He is making arrangements for a return engagement of the company on September 2d.

Mr. Stephen Hotelling, one of the popular engineers of the C. & N. W. R. R. is off for a few days rest at his cottage at Geneva Lake. Black bass and pickerel will have to look a little out.

Mr. Sybil Whitney and Miss Alice Whitney, of Toledo, Ohio, who have been for some weeks visiting with the family of Mr. Timothy E. Green, left this morning for a short visit among friends in Beloit.

Mr. and Mrs. Charles Stark to-day have the sympathy of all, on account of the death of their three days old child. The infant died this morning and the funeral will be held to-morrow from the family residence on River street, first ward.

Messrs. John Thoroughgood & Co. had the misfortune to break some of their machinery in the lumber room at their box factory on Saturday, which will prevent their running in this department until Thursday afternoon.

Christ church Sunday school will picnic at Pope's Springs to-morrow. Parents and friends of the school are cordially invited. The boat will make the first trip at 10 a. m. At 1:15 p. m. the boat will make a trip to accommodate those who cannot go in the morning.

Mr. N. Fredericks has lately been engaged in purchasing horses for Mr. D. C. Fitchard, of Chicago, and last week he shipped a car load to that gentleman. The animals were beautiful and did credit to Mr. Fredericks' experience as a judge of horseflesh.

The Chicago boat club, consisting of five gentlemen, who left Oconomowoc last Thursday in boats for a trip down Rock River to Rock Island, passed through this city Saturday evening, camping for the night near the Blind Institute. They were in good health and appeared to be enjoying the voyage.

A west side boy succeeded in winning several signs this morning. He appeared on the street rubbing his hands as though it was awful cold, saying, "Why, there was ice on the sidewalks this morning when I got up." Of course this led to a dispute and finally to a wager of the signs, when the wag would point to Gabley's ice wagons, and then all hands "smiled."

A squad of workmen commenced stretching the telephone wire this morning to connect this city with Madison. The wire is copper, and the men were walking right out of the city with the cool air anchoring one end at the central office. It will require two weeks to complete all the connections to put Janesville in communication with the Wisconsin circuit.

Mr. Harry Farquharson, who has for several years been connected with W. T. Van Kirk's grocery store has left his position in that establishment. He went this noon to Chicago, where he has been offered a position in a large wholesale establishment. Harry is a young man of much promise, and his character, integrity and industry is a guarantee in itself of a prosperous future for him.

The ladies sewing circle of the Daughters of Rebecca will give a grand picnic at Pope's Springs, on Thursday, August 27th. Music and dancing in the evening. Refreshments can be secured on the grounds by all parties so desiring. All ladies and gentlemen are invited to attend. Music—Anderson's orchestra. The boat will leave the dock at the head of Main street at 9:30 and 11 o'clock a. m., and at 2, 4, 6, 8 and 10 o'clock p. m.

The Court street church people will

give a social to-morrow evening at the home of Mr. and Mrs. H. F. Bliss, at the west end of Pleasant street, in the vicinity of Footville. A carnyal will start from the corner of Main and Milwaukee streets at 7:30 o'clock, and another from Stearns & Baker's corner at 8 o'clock. The walking is also good and the route particularly adapted to a moonlight stroll. All members and friends of the society are cordially invited.

The cold wave and frost predicted by the weather bureau for the northwest did not reach this county last evening. The sky remained cloudy during the entire night, and the lowest temperature we have reported to-day is 45 degrees at four o'clock, on Cornelia street, in the second ward. Mr. Poey, the watchman at the works of the Janesville machine company, River street, fourth ward, reports the temperature at 45 degrees at five o'clock this morning. No frost is reported by farmers coming into the city to-day.

On Saturday, September 5th, the mayor, common council, city officers and a delegation of the city fire department will visit Oshkosh, for the purpose of looking over the fire department of that city and other public improvements. The arrangements for the excursion have not all been completed, but sufficient is known that those composing the party will have a most enjoyable time. The party will go up on the accommodation train, and probably stop for breakfast at Fond du Lac, where they will spend two or three hours and then on to Oshkosh. They do not go to have "fun with the boys," but to see the sights of the "second city," and make comparisons with our own.

The particulars of a shooting affair at Lima reached town late last night, and from all that can be gathered the would-be murderer was a man who has just served three years at Waupun for horse-stealing. The man whom he used for a target, was Mr. David Abbott, of Lima, whose testimony did much toward securing a berth at the penitentiary for the horse stealer. Mr. Abbott was just entering his barn yesterday morning when he heard the crack of a pistol close beside him, and realized that his hat had been vanquished by a bullet coming from that pistol. He turned and saw a man making for the woods, and as soon as possible brought out the neighbors and gave chase. Abbott's assailant ran some distance but finally seeing that escape was impossible, gave himself up to Mr. James Richmond and was brought to this city.

A gentleman who accompanied the excursion to Green Lake on Sunday met with a humorous mishap which his friends insist having in print. Arriving at the lake and discovering that the supply of provisions were limited the gentleman and his partner decided to procure a boat and hurry across the lake to the hotel and secure their dinner before the crowd arrived. The boat was chartered and the two pulled off from shore and made straight for the hotel some miles away. The boat being a small and light one only one of the men could work the oars. Soon the first gentleman commenced to tire, when Hans suggested a change, to let him pull for a time. Agreed to, and Hans started for the oarman's seat. Hans had not taken but a step or two when the boat suddenly tipped to one side and he thinking to throw it back stepped to the opposite side, but a little too far, as the boat righted up a little too fast and sent Hans headlong into the lake. He came to the surface and in time reached the boat. He was rowed to the hotel, but could not secure a change of clothing for love or money, and was compelled to keep his wet clothing on until the train reached home. He and his partner forgot they were after a dinner.

Business Men's Meeting.

An adjourned meeting of the Business Men's association was well attended last evening. Mr. Howard, manager of the Fredonia watch company, was expected to be present, but a previous engagement making it necessary for him to be in New York to-day, prevented his coming.

A letter was read from him thanking the club for the interest they had manifested, and the matter was referred to the committee on manufacturing.

A good deal of interest was created by the reading of an article from the U. S. Tobacco Journal on the evasion of revenue on Sumatra tobacco. The article will appear in the columns of the Gazette to-morrow. The question was referred to the committee on legislation and a special committee of tobacco men, and made the special feature of a meeting to be held next Monday evening. The time has come when the strict enforcement of the law on Sumatra imports is demanded for the protection of tobacco growers and dealers, and the club will make an active and thorough effort in this direction if they succeed the value of the organization will be felt throughout the county and the tobacco growing districts.

Money Does Talk.

Mr. O. P. Church will match his man against Greek George in a wrestling match, private or public, best three in five, catch-as-catch-can, to wrestle on Friday or Saturday night in this city, for fifty or one hundred dollars a side. Mr. Church has deposited ten dollars with the city editor of the Gazette, as evidence of good faith in making the match, and has authorized this challenge to remain open until six o'clock on Thursday evening. Who speaks?

March-Wire fences.

We clip the following from a Syracuse (N. Y.) paper: SYRACUSE, N. Y., Aug. 22.—Five horses in Caninus were killed by lightning last night. They had their necks across a wire fence which was struck sixty rods away.

We have heard of many instances in our immediate vicinity where animals have been found dead near a wire fence after a heavy storm, and believed to have been killed by lightning. In one instance these were found dead near the fence, while another was found some yards distant, a melted wire indicating conclusively that the wire was the immediate cause of death. Our farmers should be cautious how they enclose their cattle and horses in pastures fenced with lightning rods. It now seems that the use of barbed wire for fencing is as dangerous as it is brutal and inhuman.

CITY GOVERNMENT.

Regular Meeting of the Common Council.

Routine and Miscellaneous Business Passed Upon.

A regular meeting of the common council was held last evening at the council chamber. His Honor, Mayor Winans, occupying the chair, all the aldermen answering to their names except Ald. Burnham, Daly, Judd and Rooney. On motion of Ald. McLean the reading of the journal was dispensed with.

Ald. Burnham came in and took his seat.

On application, Herman Pasche was given permission to remove his saloon from the Northwestern house to the Washington house.

John Donnelly was granted a saloon license, to locate at No. 24 East Milwaukee street.

On application the license held by Mrs. T. R. Gray was transferred to John Spence, at the City hotel.

The clerk read a large number of bills against the various funds, which were referred to the finance committee.

At this point Mayor Winans, noticing the presence of Street Commissioner Cunningham, asked that officer if he had inspected the sidewalks of the city and made a written report to the council as required by the charter. Upon receiving a negative reply Mayor Winans stated that there were several defective sidewalks in the first ward and that the city was made liable for damages at any time; suggested that the street commissioner make a thorough inspection of the sidewalks throughout the city and report to the council. Also that that officer be authorized to remedy inexpensive repairs where required without waiting for special action by the council. The remarks by the mayor resulted in the council instructing the street commissioner to cause all sidewalks and aprons to be repaired.

Ald. Croft, of the finance committee, reported in favor of allowing bills against the various funds as follows:

General fund.....\$20.00
First ward fund.....177.50
Second ward fund.....100.00
Third ward fund.....100.00
Fourth ward fund.....100.00
Fifth ward fund.....100.00
Fire department fund.....60.75
Bridge fund.....75.00

Total.....\$563.25

The report was concurred in.

On motion of Ald. McLean the chief engineer was instructed to confer with Mr. Randall Williams in regard to the use of some land in the rear of the west side engine house for the purpose of building a coal shed.

Ald. McLean stated that it had been the custom of the members of the fire department for some years to visit neighboring cities. This year the Chicago & Northwestern railway company had kindly tendered the use of a car, and that the department had decided to visit Oshkosh to inspect the fire department of that city, the water-works and the other city improvements, on Saturday, September 5th, and that they desired the mayor, common council, and city officers to accompany the party. On motion of Ald. McLean the council voted unanimously to accompany the party.

City Attorney Smith reported that the city was not liable for the bill claimed by Wm. Lepper, whose buggy was wrecked on July 3d, by his horse taking fright from the explosion of fire crack ers.

Ald. McLean—An order instructing the city clerk to advertise for bids to supply the fire department and city offices with coal. Adopted.

Ald. George—an order providing for the construction of a concrete sidewalk on the north and east sides of the fourth ward school property. Adopted.

Also for the construction of stone cross walks on the east side of River street, across Center and Pleasant streets and for repairing of the gutters. Adopted.

Also for the repairing of the road on the north side of land owned by G. J. Kellogg, fourth ward. This order was referred to the alderman of the fourth ward and the city attorney for investigation.

Ald. Burnham—that a gas lamp post be erected on Cornelia street, half way between Ann and Glen streets, (when the gas main shall be laid to that point). Adopted.

Ald. Shearer—that the street commissioner be directed to clean gutters and repair culverts in the first ward under the direction of the aldermen of that ward. Adopted.

The suit—the city against the C. M. & St. P. R. Co., for obstructing the streets—was ordered discontinued, the railway company paying the costs.

On motion of Ald. McLean the chairman of the highway, street and bridge committee was instructed to correspond with the railway officials regarding the drainage of water across the railway tracks from the first to the fifth wards.

Ald. Lennartz—an order appointing W. G. Palmer appraiser, to assess and place the damage to property by the proposed extension of Academy street south to Rock river. Adopted.

Mr. M. Craven was heard relating to the payment of a certain tax by him in the fourth ward. Referred to city attorney.

The council adjourned.

Emerald Grove.

Dr. L. R. Fahr, of Beloit, who is to be Dr. Seaver's successor, is now assisting the doctor for a time.

Dr. Heller will open the rink for the season on Saturday evening August 29.

Dr. Seaver, who has now completed arrangements with the railroad company for a car for the California party, reports that one car will not accommodate all who now talk of going.

One of our wealthy land owners passed through town to-day with a fur cap on. On his stopping at the store the thermometer fell several degrees. He was once which was struck sixty rods away.

HARVESTING TOBACCO.

Condition of the Crop in the Vicinity of Edgerton.

An Interesting Letter from Our Regular Correspondent.

EDGERTON, Wis., Aug. 25, 1885. The crop of '85 at last seems likely to succumb to the many perils which have attended its growth. A heavy frost seems imminent, to avoid which, large quantities of tobacco are being cut to-day.

Some will burn large fires to the windward of the fields in order to protect them.

Probably over a quarter of the crop has been harvested and a large percentage of that now standing is nearly ripe.

Such tobacco will not be worth near as much if cut now, as it would be left to ripen, but a great many are ready to lose a certain percentage than stand the risk of losing all.

Tobacco which was cut during the latter part of last week will probably be the cream of this year's crop.

The cool weather was very productive of the gum which gives tobacco its flavor and weight, this is wholly wanting in crops harvested before the present cool spell commenced, and they will be found to be light in weight. The crops that are being harvested this week, although they are fully ripe, have had a large percentage of that gum washed out of it.

Should there be an immediate frost, those who harvested their crops last week cannot use too much care in handling them, and will find themselves amply rewarded for that care.

The frequent rains have bent down the stalks so that they are crooked, and makes proper hanging almost an impossibility, as the leaves will not hang straight down from the earth, but stand sideways and come in contact with adjacent leaves. Should there be any hot weather, this defect will be very productive of shed burn and pole rot.

It is very poor economy to try to save shed room, and will invariably result in loss to the economist.

Rust is noticeably present on nearly every crop around here, but has not spread so far as to damage the crops. But one or two cases of such are reported.

Tobacco buyers report that the crop this year has matured much faster than in previous years.

Quite a number of eastern tobacco buyers are here looking over the field, and examining the present crop.

Still at the front.

DIMOCK & HATNER—Still represent a greater number of insurance companies than any one agency in Wisconsin. Among them are the oldest, largest and strongest companies in America and England or in the world. They continue to write policies at as low rates as any other responsible companies. All honest cases promptly adjusted and paid. Office first floor next east of Rock County National bank. Houses and lots for sale and money to loan. Special attention given to cyclone, fire and tornado insurance.

Lake Geneva.

(Correspondence of the Gazette.)

LAKE GENÈVE, Aug. 24. Though the end of the summer is rapidly approaching, the camps and hotels are still crowded. The hotel men and park proprietors have reaped a rich harvest this year, and have made money enough to more than compensate them for the dull season last summer.

This week and next the attractions will be at their highest point, and after that time the number of new comers will grow gradually less, though many of the campers will remain until well into September. This week Saturday the grand Sheridan regatta will be sailed, the course being from a buoy near the village around another near Fontana and back to the starting point. A large number of yachts are entered and as a number of them were built especially for racing, the race can not fail to be an exciting one. Among the boats entered are the Ethel, which held the cup for two years; the Whisper, whose owner is the present custodian of that trophy; and Blossom, which was a victor two years ago. Each boat has been thoroughly overhauled, and fitted with racing canvas, so that an exceptionally fast race may be expected.

A race between the Evanston boat club and the Farragut rowing club, of Chicago, will take place soon, as the Evanston are already here, and the Farraguts come next Saturday. It is reported that the McKays, of Janesville, have bought a piece of property near Forest Glen, and will erect a magnificent clubhouse for the accommodation of a number of Janesville people. Their land will be in close proximity to Fontana Park which is the camp where the Janesville people usually stay, and where a large number are now camped. Below is a partial list of those at this park:

C. Holm, Fred Wright, Mrs. F. James and daughter, Mrs. J. Somerdyke, Wm. Meredith, Ed. Fraiser, C. S. Claton, and son, of Aurora, Ill.; Miss Ottman, Miss Lida Humphrey, J. Trux, M. Dickerman and Miss Bell Drake. Mr. Wilcox and son, Mrs. Drake and Miss Jessie Bell, of Clinton; W. T. Parvis and family, T. Larsson, A. Guernsey, Wm. Nichols of Melott.

Besides these there are many who camp here every year, and stay right through the season. Every tent on the grounds is full, and the tents as a rule have been engaged for some two or three weeks to come.

Delicate diseases, as nervous debility and premature weakness, however induced, radically cured. Send 10 cents in stamps for treatise. World's Dispensary Medical Association, 633 Main street, Buffalo, N. Y.

The Weather.

At seven o'clock this morning the thermometer indicated 32 degrees above zero. Partly cloudy with north wind. At 1 o'clock p. m. the register was 73 degrees above zero. Clear, with north wind. For the corresponding hours one year ago the register was 61 and 79 degrees above zero.

A very complete line of carriage dust-ers and riding saddles, at J. A. Fathers corner of Court and Main streets.

Edwards' Balm of Life is sold by Palmer & Stevens. Trial bottle free.

C. E. Bowles has money to loan.

TOBACCO.

Markets Here and Elsewhere.

What Growers and Dealers are doing, and How the Crop is Coming Out.

JANESVILLE. The past few days have been hard on tobacco but the days preceding were so favorable that the crop was in good condition to stand a few hardships. From Saturday night until Monday morning it rained almost incessantly and as the ground was already well soaked the heavy rainfall did considerable damage. On Monday the weather began to grow cool and it was feared that frost would appear, but the cloudy sky and light breeze kept it off.

The grasshopper has been doing considerable damage around the edge of the field, but most growers report that the center of their fields are untouched. In fact the crop is showing up finely; all that has been put in the shed is first class, and if the frost holds off the farmers will make money.

Sampling of the '84 crop is now well under way and the results are very satisfactory to the packers. One or two outside buyers, among them L. Teller, of Teller Bros. & Co., Philadelphia, are in the city and the buying will soon commence.

NEW YORK. A few weeks hence sampling of the '84 crop will be in good progress. Until then no change need be expected. There will be an excellent trade then. For those having fine seed leaf the prospects are better than ever. In the new Sumatra a great mass is laid, and in many instances even does not come up to the standard of medium Havana seed. Fine seed leaf and fine Sumatra is in demand and will sell. The future figure of either will be regulated by the quantity of fine seed leaf.

Export demand is at a stand still. Exporters offer from 6 to 8 cents per poor white veined '84 Pennsylvania. Nobody is willing as yet to dispose of it at such figures. European markets are on a level with our own. Sumatra has been the leveler.

During the week the following sales have been made public:

'84 Wisconsin Havana seed—360 cases, 10 to 22 cents.

'84 Pennsylvania—200 cases, low, 5 1/2 cents.

'84 Connecticut—200 cases, seconds, 15 cents.

'82 Pennsylvania—400 cases, 9 cents.

'81 Pennsylvania—150 cases, B and C, 13 cents.

'83 Ohio—100 cases, p. t.

Sumatra—Sales 250 bales. (See above report.)

Havana—Active. Sales 500 bales; leafy stock is in better demand; low grade 60 cents and bids sold rapidly at 52 cents to the extent of 200 bales; quotations, 80 cents to \$1.25.—United States Tobacco Journal.
